The Issue Date is the date the license/registration was originally issued. The Expiration Date is the date the license/registration expired or will expire. The license/registration may not have been active from the Issue Date to the Expiration Date; there may have been periods of non-licensure.

### Doing Business after Expiration Date

A repair facility may continue to perform motor vehicle repairs temporarily after the registration expiration date, pending approval of the renewal application. This only occurs if the renewal application has been received by the Michigan Department of State on or before the expiration date.

- If the renewal application is filed after the expiration date, a facility may temporarily engage in repairs without a registration from the time the application is received, pending approval of the renewal application; or
- From the date on which the application is filed in person, pending approval of the renewal application.
